This conference will arrange for a thorough educational campaign of the State, beginning on September 20th, 1909, and continuing until the first of January, 1910, or to such date as may be necessary to make a thorough canvass of the State. The superintendent and board of public instruction in each county will be the general managers of the campaign in their county, and all plans will be executed through them or under their direction.

At this conference there will be launched the greatest educational propaganda ever dreamed of in Florida.

Among the speakers who have tendered their services for at least a

## ANOTHER STORM COM- ING FROM THE GULF

WARNINGS SENT OUT BY THE  
WEATHER BUREAU.

It is Expected to Strike Land Between  
Pensacola and the Mouth  
of the Mississippi.

PENSACOLA, Fla., Aug. 24.—For the second time in the history of the city, hurricane warnings were displayed last night by the weather bureau and caused much uneasiness among the bay shore residents, who fear a repetition of the hurricane of three years ago.

Ships at anchor and at wharves have put on extra anchors and cables while the entire fishing fleet, with many of the harbor tugs and steamers and two or three coastwise steamers which put in out of the rough weather, have gone across the bay and anchored in a cove.

Wind blowing from 35 to 60 miles an hour prevailed all day and last night lowering clouds and a high wind, with exceptionally high tides, gave warning of the approach of the hurricane.

NO DAMAGE REPORTED.

NEW ORLEANS, Aug. 24.—No serious damage as a result of the storm yesterday on the Gulf had been reported up to a late hour last night. Masters of vessels which were in the Gulf when the storm warning was issued yesterday morning reported last night that they had experienced some rough weather and said that it was still dangerous for light craft to venture beyond the passes. The seas were running so high that much difficulty was experienced by the pilot boat in reaching the Steamer Momus from New York. The steamer reached port yesterday afternoon several hours late.

part of the time, are: Hon. J. Y. Joyner, State Superintendent of Public Instruction and President of the National Education Association, Raleigh, N. C.; Hon. W. M. Holloway, State Superintendent of Public Instruction and Vice-President of the National Educational Association, Tallahassee; Hon. J. B. Aswell, Ex-State Superintendent Public Instruction, Baton Rouge, La.; Dr. P. P. Claxton, Professor of Education, University of the South, Knoxville, Tenn.; Dr. A. A. Murphree, President of University of Florida, Gainesville; Dr. Edward Conradi, President Florida State College for Women, Tallahassee; Dr. Lincoln Hulley, President of John B. Stetson University, Deland; Dr. W. F. Blackman, President Rollins College, Winter Park; Dr. J. P. Hilburn, President Southern College, Sutherland; Dr. H. W. Tribble, President Columbia College, Lake City; Dr. J. W. Walden, President Palmer College, DeFuniak Springs; Captain George M. Lynch, Professor of Secondary Education, University of Florida, and State High School Inspector, Gainesville; Hon. L. W. Buchholz, County Superintendent of Public Instruction, Tampa; Hon. N. B. Cook, County Superintendent of Public Instruction, Pensacola; Hon. R. L. Turner, County Superintendent Public Instruction, Inverness; Hon. E. B. Eppes, County Superintendent of Public Instruction, Tallahassee; Hon. J. L. Kelley, County Superintendent of Public Instruction, Gainesville; Hon. W. S. M. Pinkham, County Superintendent of Public Instruction, St. Augustine.

As the campaign for education in Florida is to be entirely of an altruistic nature and such as to affect the highest and best welfare of the entire people, the press of the State is earnestly requested to give as wide publicity to the notice of the meeting as possible.

## BRONSON NEGRO KILLED FOR ASSAULT UPON LADY

**Mrs. Snowden, Highly Respected Lady, Had Narrow  
Escape From Black Fiend Tuesday.**

Steve Brown, a young negro, was shot and killed Tuesday morning at Bronson by Bart Faircloth, a young white man, for an assault and attempted rape upon a Mrs. Snowden, a highly respected lady of that place.

The lady was engaged in working at her garden in the northwestern part of the town, fully a distance of five blocks from the business center, when the negro appeared in the garden. He came up behind her and made the assault.

Her screams at once attracted Mr. Faircloth, who was within a short distance, and he thinking it was a hawk after her chickens, ran over to the place with his gun, only to find that it was a negro who had attempted a heinous crime.

Mrs. Snowden was badly frightened, but told Mr. Faircloth of the oc-

currence as quickly as possible and he succeeded in stopping the brute before he had gotten out of the field and in the hammock, which he was making for at that time. When the negro refused to stop at Faircloth's commands, he raised his gun and fired, but as the shot were small it took three loads to stop him.

Following the occurrence Mr. Faircloth went up town and informed the officers of the occurrence, and also a number of citizens, who found the case as he had represented it and an inquest was ordered held, which completely exonerated him of blame for the shooting.

Brown had been living at Bronson for several years and was always thought to be reliable and all right until the occurrence on Tuesday, which resulted in his death.

## American Aviator Wins Honor for Speed at Rheims

RHEIMS, France, Aug. 24.—Glenn H. Curtiss, the American aviator, and M. Paulham, representing France, divided the honors of the second day of aviation week, the former with a thrilling flight just before dusk in which he lowered the speed record for the course, which measures 6 1-5 miles, to 8 minutes, 35 2-5 seconds, the latter making two impressive high altitude flights of 49 1/2 and 56 kilometers respectively in the endurance test for the Prix de la Champagne.

Curtiss' performance began just as the time limit of the start for the Prix de la Champagne was expiring, when the American enthusiasts had abandoned hope of seeing their representative take the field.

Amid the unbounded jubilation of the french spectators, Blieriot only a few minutes before had clipped 16 seconds of Lefebvre's record, made Sunday with his powerful eighty-horsepower monoplane.

Suddenly at one end of the field a cry went up: "The American is starting!"

With a preliminary run along the ground of one hundred yards the machine of Curtiss rose lightly and shot by the tribunes at a height of sixty feet. It was going at a terrific pace with the wings level as a plane. Curtiss made the last turn under the mistaken impression that the finish line was closer. He descended so close to earth that many thought he touched but perceiving his error, he mounted quickly and easily crossing the line

majestically. An instant later the signal was hoisted that he had made a record.

Curtiss said that he had not pushed his machine to the limit of its speed and laughingly declined to say more, adding that the most interesting incident of his flight was the view he got of his fallen rivals strewn around the course.

It is intention of the American aviator now to await patiently the international event for the Gordon Bennett cup Saturday, for which he is the favorite, after which he will try for the Prix De La Levée, the final of which will be contested on Sunday.

Paulham alone made a record in the endurance test yesterday, but Lefebvre, Sommer, Sanchis-Pesa, Blieriot, De LaGrange, Lambert, W. Cockburn, Bunu-Varila, Gobron, Latham, Tassandier and Farman qualified with flights varying from 200 to 250 kilometers. During Paulham's long flight chance races occurred between him and Blieriot and Lefebvre, the two latter outspeeding Paulham. Blieriot appeared while Paulham was completing his fourth round and with his eighty-horsepower monoplane, swiftly overhauled and passed under the biplane, leaving it far behind.

Two monoplanes having been put out of commission by a slight accident in landing, Latham succeeded in making his flight with an untried machine with an aluminum propeller.

## First Steel Bridge Span Be- low Knight's Key in Position

The first steel bridge span on that portion of the Key West extension of the Florida East Coast Railway from Knights Key to Key West, was put in place Saturday and the occurrence marks an important step forward in the completion of the wonderful engineering project which is soon to link the Island City with the mainland of the United States. If all conditions are favorable it is likely that the Knights Key channel will be bridged within three months, when work trains will be able to get across and thereby expedite the construction work on the remaining keys.

There are about 120 spans or super-

structures, from 50 to 70 feet wide, to be erected. The spans will be put together on a barge and then towed to the piers they are to bridge. A powerful derrick fitted to wheels and run out on the first pier, will lift the spans into place. As fast as the spans are placed they will be finished, the track extended onto it, derrick advanced and the next span placed. In this way the viaduct will be built, the completion of the last span meaning the completion of the bridge—St. Augustine Record, 23rd.

## Census Bill Puzzle Is Up to U. S. Attorney-General

WASHINGTON, Aug. 24.—Attorney General Wickersham is wrestling with a legal problem on which depends the fate of fifty-eight Indian schools. In the census act, which was passed at the last session of Congress, there was a provision forbidding the employment of two members of the same Government department. Owing to peculiar conditions in the Indian schools it has been customary in some cases to appoint the same

of the superintendents of the schools as matrons of the same institutions.

This condition exists at fifty-eight of the 120 Indian schools in the country. At the request of the officials of the Interior Department Attorney General Wickersham will construe the provision. The officers of the Interior Department contend that the provision refers only to the census work and not to the Government service at large.

## Commission Working to Se- cure Uniform Divorce Law

DETROIT, Aug. 24.—To discuss laws which it is hoped to make uniform in every State, the commissioners on uniform State laws are holding a national conference here. About fifty lawyers from all over the country are in attendance.

Prof. Samuel Williston, dean of the Harvard Law School, said yesterday: "Just now we are giving our attention to laws pertaining to banking and negotiable instruments in general. One of the next topics we mean

to discuss is the regulation of divorce. It is our desire to make the migratory divorce impossible. There are now few States whose statutes covering this important matter are not materially different, the result being that if a man or woman finds a legal separation too difficult in Michigan, for instance, he can step across the line into some other State where the law is less stringent. We want to have the divorce law the same the country over."

## FIRE DOES \$50,000 DAMAGE AT DIXIELAND PARK

MANY BUILDINGS OF PLEASURE RESORT DESTROYED.

Fire Fighters from Jacksonville Did Good Work in Saving Several Buildings.

JACKSONVILLE, Fla., Aug. 24.—Flames of unknown origin, fanned by a stiff east wind, swept through the grounds of Dixieland Park on the south side of the St. Johns river this morning, destroying buildings valued at between \$50,000 and \$60,000. The loss is a total one, investigation showing that there was no insurance on the structures built entirely of wood. Volunteer firefighters, together with the steamer from the central fire station in Jacksonville, and a squad of firemen, headed by Chief Haney, saved the pleasure park from total destruction. Dixie Theatre, the skating rink, Bentley's restaurant and other smaller buildings were not damaged.

The fire started in the grounds of the Florida Midwinter Fair, just across the roadway leading from the ferry slip to South Jacksonville, and were first noted in the building originally constructed for Rollair's flying automobile, and occupied during the last fair by Mundy's Trained Animals. This building was unoccupied, and the fire might have started there from a lighted cigar or cigarette stub cast aside carelessly, probably by some tramp who used the building as sleeping quarters. From this building the flames spread to the Boosters' Club, next adjoining to the south, and then, fanned by the strong wind, crossed the roadway and carried destruction before it to the west, burning a path several hundred feet wide through the park.

### Buildings Burned.

The buildings destroyed were Flying Automobile building; loss, about \$3,000.

Boosters' Club; loss, about \$4,000. Two small buildings used by concessionaries at last exposition and located just south of the Boosters' Club; loss, \$2,000.

These buildings are all located on the grounds of the exposition, or Midwinter Fair. The force of the wind and the work of the fire fighters prevented the flames from communicating to the exposition building proper, which is located only a few yards southwest of the Booster Club location.

In Dixieland Park the following buildings were destroyed:

The Carousal; loss, \$15,000.

The Plunge (swimming pool, built

originally for Bostock's Animal Show; loss, \$15,000.

Exhibition stage in center of park; loss, \$1,900.

Bowling alleys; loss, \$2,000. These buildings are located on the east side of the park, where also the figure eight roller coaster was slightly damaged by the flames.

On the west side of the park, where the flames were carried by the wind, although they jumped an open space of a hundred feet or more, only two or three small unoccupied buildings, Japanese concessions, and the shooting gallery were destroyed, with a loss of probably \$4,000.

The flames were stopped within the confines of the park on the west side. Damage to other buildings, to the fences and board walks, together with the destruction of trees, shrubbery and flower beds, will bring the total figures up to between \$50,000 and \$60,000.

It is not thought that the park will be rebuilt. The officers of the company, owing to the financial troubles of the concern, are not in a position to make any announcement just at present as to the future of the park.

### Disagreeable at Home.

Lots of men and women who are agreeable with others, get "cranky" at home. It's not disposition—it's the liver. ## TAFT FAVORS REDUCTION IN SIZE OF ARMY

FINDS IT VERY DIFFICULT TO SECURE SUITABLE RECRUITS.

This Given as Excuse for Reduction, But Real Reason Is Economy, Saving of \$1,000 Per Man.

WASHINGTON, Aug. 24.—Returning prosperity is having its effect on recruiting men of the United States Army to keep up the standard established during and following the panic of 1907, when splendid material was available from the ranks of the unemployed.

The authorized strength of the army today is \$1,500 men, exclusive of the hospital corps, which numbers 3,500 men. As the terms of enlistment of the men expire, it is no easy matter to induce desirable men to enlist.

It will be a hard matter, therefore, to reduce the size of the standing army, in accordance with President Taft's wishes. Ostensibly the cause for this reduction is the difficulty of obtaining good men, but the real reason is one of economy.

Every man reduced means a saving of \$1,000 a year, and if the reduction proposed reaches 8,000 men by July 1 next, the total annual saving will amount to \$8,000,000 per year. President Taft has been insistent on reductions.

Necessary construction work of all kinds has been postponed and the acquisition of other needful equipment has been deferred.

### Active at 87.

This would be unusual news if men and women would keep themselves free from rheumatism and all aches and pains as well as keeping their muscles and joints limber with Ballard's Snow Liniment. Sold by W. M. Johnson.

## AMERICAN AVIATOR WINS HONOR FOR SPEED AT RHEIMS

(Continued from Page One.)

Until Saturday, when the international event will be decided, the flying is likely to be less interesting than during the first two days, but popular as well as scientific and expert enthusiasm over aviation week shows no sign of abatement.

Among the hundreds of Americans here are Mr. and Mrs. George Gould, Mrs. W. K. Vanderbilt, Jr., Mr. and Mrs. Nat Goodwin, William H. Crane and Mr. and Mrs. Lewis Kittredge of Cleveland.

## S.S.S. PURELY VEGETABLE

The absolute vegetable purity of S. S. S. has always been one of the strongest points in its favor, and is one of the principal reasons why it is the most widely known and universally used of all blood medicines. A great many of the so-called blood purifiers are really nothing more than strong mineral mixtures which act so unpleasantly and disastrously on the delicate membranes and tissues of the stomach and bowels, that even if such treatment purified the blood, the condition in which the digestive system is left would often be more damaging to the health than the original trouble. Not so with S. S. S.—it is the greatest of all blood purifiers, and at the same time is an absolutely safe and harmless remedy. It is made entirely of the healing and cleansing extracts and juices of roots, herbs and barks, each of which is in daily use in some form by physicians in their practice. Years of work and research have proven S. S. S. to contain everything necessary to purify the blood and at the same time supply the system with the purest and best tonic effects. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases, Scrofula, Contagious Blood Poison and all other blood troubles, and it leaves the system in perfect condition when it has purified the blood. ## OCALA TOMORROW WITH AN ENTIRE NEW TEAM

HAVE IMPORTED PLAYERS AND ARE COMING HERE TO WIN.

Low Rates Have Been Granted and People Will Come Up on Both Trains.

Ocala is coming tomorrow for two straight games on the local diamond and with one of the strongest teams that have ever been assembled for the Brick City people.

Outsiders have interested themselves in the ball team at that place and have raised funds which were turned over to the management with instructions to "get a team that would beat Gainesville," and it is understood they have followed the instructions.

Some of the reports go so far as to say that Ocala will not have a single one of its old players in the game, for they have a new team purchased especially for the games to be played here, and which they will hold until after the final two games of the season with the Oak Halls on the Ocala grounds next week.

Manager Davis has also been "looking around" some, is keeping a line on things, and if it is as the rumor states, he will have some new faces to introduce to the Gainesville people on this occasion.

With proper playing there are not many better teams to be found than the Oak Halls, but the judgment displayed by the players has been poor at times and they have not had the captain that would "go after" them in the right spirit and roast them when they needed it.

Following the two games here Thursday and Friday the Oak Halls have a big road trip ahead of them. They will play St. Augustine two games, and from there will return home to go to Ocala for two games, after which they return to go to West Florida and Georgia for about one week, when the season will practically be come to a close.

Ocala has secured special rates for the games to be played in this city and the trains run just right for them, rendering a special train unnecessary. They can come up in the morning or wait until the afternoon train at 3:30, and it is expected that they will bring a large crowd.

It's time then to use Doan's Kidney Pills.

To ward off Bright's disease or diabetes.

Doan's have done great work in this locality.

Mrs. J. L. Warren of Starke, Fla., says: "For some time I was a victim of kidney trouble. The kidney secretions were too frequent, in passage, causing me the greatest annoyance and I suffered constantly from backaches and dull pains through the kidneys. I could not rest well and in the morning arose feeling tired and worn out. My back became very lame and I often found it difficult to get around. I at length read about Doan's Kidney Pills and procured a box. Since using them, I have been free from backaches and the soreness and lameness has disappeared. The annoyance from the kidney secretions also ceased and I am able to sleep well. Doan's Kidney Pills benefited me wonderfully and I can recommend them as the best kidney remedy I ever used."

## RUSSIAN DIRIGIBLE BALLOON WAS WRECKED

BLOWN BY HEAVY GUST OF WIND AGAINST TREE.

It Had Made an Ascent of 4,500 Feet, Remained an Hour and Descended Safely.

PARIS, Aug. 24.—Built for the Russian government by the Bayard-Clement Company, the Bayard-Clement dirigible balloon, which by the contract was to have maintained an altitude of 3,600 to 4,500 feet for one hour, was wrecked during its preliminary trial yesterday. After having made its ascent successfully, remained in the air and come down without damage, the airship while on the ground was torn by a gust of wind from the grasp of forty men who were holding it. It was thrown against some trees and telegraph poles nearby, ripping the gas bag to pieces. The ship then fell into the river Seine.

The four occupants had stuck to the car during these happenings. Upon landing in the river they left the shattered ship and swam for the shore. They were picked up by small boats.

Col. Nach, one of the Russian army aviators, described his experience as follows:

"We made a wonderful ascension, attaining a height of 4,500 feet. This beats the world's record for height for dirigible balloons. We remained aloft for over an hour, never coming below 3,600 feet. Just after the car had come down, it was struck by a blast of air, wrenched from the hands of the men holding the guide ropes. Our fuel was exhausted, and we had practically no control. The balloon came down a second time and was ripped open by contact with trees. It then fell into the Seine and we swam until we were picked up."

## A SERIOUS CUTTING AFFRAY AT NEWBERRY

TWO NEGROES INVOLVED IN DIFFICULTY SATURDAY NIGHT.

Jim Davis, the Wounded Negro, is in Serious Condition, and Wadsworth Ordered Held.

As a result of a serious cutting affray at Newberry on Saturday night Jerry Wadsworth, one of those "bad" negroes, is now confined in the county jail to await the injuries of the man he slashed.

Wadsworth visited the home of one Jim Davis, and it was while he was Davis' guest that he became engaged in the difficulty and at once pulled his knife and went after his host, cutting him so bad that he is in a critical condition and may die from the wounds.

The negro was caught during Saturday night but held at Newberry in the hopes that the other negro would be enabled to attend court and appear against him, but on Tuesday it was seen that he would be unable to come out for some time, if at all, and Wadsworth was ordered brought here and confined in jail by Justice Carter to await the injuries of the wounded man.

Both negroes are well-known characters of Newberry.

### EXTRAORDINARY HAIR TONIC.

It Won't Grow Hair on Bald Heads

Unlike all other hair restorers, Parisian Sage won't grow hair on bald heads. Neither will it grow hair on china eggs, door knobs or hitching posts.

One claim is about as sensible as the other.

If your head is bald and you want to cover it with hair, get a wig.

Parisian Sage, the quick-acting hair rejuvenator, is of no use to bald headed people; but for people who have thin hair, falling hair and dandruff and where the bald spot is just beginning to show, there is nothing in this wide world that will give such satisfactory results as Parisian Sage. Parisian Sage is guaranteed by W. M. Johnson to drive out dandruff and stop falling hair in two weeks, or money back. It stops itching scalp in two days, and keeps the scalp cool and free from odors in warm weather.

There is nothing on earth that will so quickly turn dull, faded hair into lustrous and luxuriant hair as Parisian Sage.

Try a bottle of Parisian Sage at W. M. Johnson's risk. Use it for a week and you will have no use for the ordinary tonics. Parisian Sage is delightfully perfumed, free from grease and stickiness, and a large bottle costs but 50 cents. The girl with the auburn hair is on every bottle.

## Nervous Women

For nervous, tired women, we recommend Cardui. Cardui is a woman's medicine. It acts specifically on the female organs and has a tonic, building effect on the whole system. It contains no harmful ingredients, being a pure vegetable extract. If you suffer from some form of female trouble, get Cardui at once and give it a fair trial.

**TAKE CARDUI**  
It Will Help You

Mrs. W. W. Gardner, of Paducah, Ky., tried Cardui and writes: "I think Cardui is just grand. I have been using it for eleven years. I am 48 years old and feel like a different woman, since I have been taking it. I used to suffer from bearing down pains, nervousness and sleeplessness, but now the pains are all gone and I sleep good. I highly recommend Cardui for young and old." Try it.

The political and social unrest of Europe during the past few months has not been unlike that which prevailed during the stormy period of 1848-9. As then, the upheaval is due to discontent with prevailing social and political conditions. But in popular government, civil and religious liberty and industrial conditions, Europe has made considerable headway in sixty years. Still, the present unrest, unreasonable though much of it may be, indicates that the lot of the people is yet far from what it should be.

A distinguished educator has recently formulated what he calls a new religion, and a minister of the gospel has just said that in time the Bible will give away to a better and more important book. Notwithstanding the high position these two men occupy they have not succeeded in convincing people to their way of thinking. Probably it is due in the first instance to the fact that our present religion really embraces all the essential features of the proposed new system, and in the second instance to the realization that mankind does not yet fully live up to the teachings of the present book.

## A QUIET SOUTH.

In these mid-summer days affairs are moving along quietly in most of the Southern States, says The Wall Street Journal. The banks of New Orleans are beginning to feel the stimulus of larger demands for funds. The iron industry at Birmingham is enjoying the long-deferred luxury of getting better prices for its products. Practically all of the cotton mills in the Piedmont towns are running on better time, and many operatives who have not been regularly employed are back again at the positions they held before the panic.

The railroads are resuming their fuller employment of labor in their double-tracking operations and in the construction of new branches to tap territories which have not hitherto contributed to traffic. There has not been for some time, with the exception of the Georgia Central strike, any serious outbreak in the relations of the races, and the section as a whole seems to be entering with eagerness the season of cotton picking when almost everybody can do something that will bring in hard cash.

Formerly the South would have been much stirred by the tariff question, but what little stir actually occurred is proof that the section accepts the general policy, in common with the most of the people, as one that, under existing conditions of development, is in keeping with its own ambitions and best interests. Furthermore, the South has become much more broad-minded in its treatment of the railroads. Even the Legislature of Georgia, which recently adjourned, did comparatively little that could be regarded as antagonistic.

Much more of the spirit that causes the whole people to pull together in building up commonwealths is now seen than at any earlier period in the history of these States. This is partly the result of diversity in the occupations of the people, affording fields for variety of talent which formerly had to seek opportunities elsewhere. The simpler life of the Southern people gradually gives way to a more complex system of interests, out of which comes a measure of balance that is bound to tell favorably in the commercial, the industrial, the financial and the political evolution of the people. This is the secret of the quiet yet earnest state of mind which more and more comes to have control of the various enterprises that in recent years have been built up only to a limited extent by outside aid and pre-eminently by their own efforts.

It used to be preached and taught that the masses in town and country should be content with their station in life, and seek their reward, if any was due them, in the hereafter. Such doctrine will not do today, for everyone now believes that he has the right to better his present condition. Still it is not always easy to attain one's aspiration, for trust and corporation power are in some respect making the conditions of life increasingly difficult.

Chicago has had a cleaning-up day. The quantity of dirt and rubbish of all kinds that was gathered up and carted away was enormous. No doubt Chicago is today a better and a healthier city for the cleaning it has had. Now if Chicago will only go through a thorough moral and municipal cleaning it will in all respects be one of the healthiest cities in the world.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

## STATE PRESS OPINIONS.

It is variously estimated that Lee county will produce from 300,000 to 450,000 boxes of oranges and grapefruit the coming season. It is a sad fact that we have some commission men in the country who are trying, at the present time, to fool the grower into selling his fruit on the grounds that the crop will be so large that the price will naturally be low. We would like to warn the grower against consigning his fruit at all, and especially until he has investigated.—Fort Myers Press.

The question of a State convention is being agitated by some of the leading newspapers of the State. The editor of The Courier has all along advocated the calling of a State convention not, as one paper has suggested, that we may let the people know whether they are Democrats or not, but that the party in convention assembled may have an opportunity to declare itself on certain measures for the benefit of the Legislature and that we may reaffirm our allegiance to the doctrine of our Democratic fathers.—Plant City Courier.

Kissimmee is soon to have a first-class system of waterworks. This little inland town is progressing rapidly.

Charles Henry Walton, editor of the popular "pink paper," The East Coast Advocate, at Titusville, is to be married to Miss Wilhelmina Eleanor Mack of Reading, Mass., the wedding to take place today. They will return to Titusville in November.

Saturday marked the real beginning of activity in preparing for the erection of the Government building in Miami, and within the next two or three weeks the building site will be clear of buildings, ready for Uncle Sam to occupy with a handsome structure.

Much excitement was caused in Fort Myers last week by an explosion. A gasoline tank which was on a house boat belonging to S. K. Heller, burst, the explosion being followed by a flash of fire, and the boat soon burned and sank to the bottom. Mr. Heller was badly burned and will be laid up for several weeks.

Florida's junior Senator, Hon. Duncan U. Fletcher, has been dubbed as "old pineapples" by President Taft. It is presumed that Mr. Fletcher worked so hard to maintain a high duty on pineapples for the protection of Florida producers that the President thought he merited and deserved the new title.—DeLand News.

During last week the work of unloading the sixty-pound steel rails intended for the St. Joseph extension of the A. N. railroad was under way and the track laying will commence on Monday morning and be pushed through to a rapid completion. There are 19 miles of track laying, with additional side tracks, making in all 22 miles.—Apalachicola Times.

The recent death of General Miller reminds us that there are now but three surviving general officers of the Confederate Army now living in Florida—Major-Generals S. G. French of Pensacola and E. M. ### CUTICURA REMEDIES ENTIRELY CURED HER

"About two years ago I contracted eczema and suffered intensely for about ten months. At times I thought I would scratch myself to pieces. My face and arms were covered with large red patches, so that I was ashamed to go out. I was advised to go to a doctor who was a specialist in skin diseases, but I received very little relief. I tried every known remedy with the same results. I thought I would never get better until a friend of mine told me to try the Cuticura Remedies. So I tried them as the last resource and I am very glad that I did, for after four or five applications of Cuticura Ointment I was relieved of my unbearable itching. I used two sets of the Cuticura Remedies (Soap, Ointment and Pills), and I am completely cured. I always recommend Cuticura to any one that is suffering and in every case it seems to cure. Miss Barbara Kral, 629 Mt. Pleasant Ave., Highlandtown, Md., Jan. 9, '08."

### Fretful Babies Suffering from Skin Humors, Soothed to Sleep by Cuticura.

A warm bath with Cuticura Soap and a gentle anointing with Cuticura Ointment, purest and sweetest of emollients, afford immediate relief in the most distressing forms of itching, burning, scaly and crusty humors, eczema, rashes, inflammations, irritations and chafings of infants and childhood, permit rest and sleep and point to a speedy cure when all other remedies fail. Guaranteed absolutely pure and may be used from the hour of birth.

A deal has been closed for 15,000 acres of Columbia county's choice soil lying outside of the city limits of Lake City, and before the middle of December this immense tract of land is expected to be populated by at least 10,000 people. The land has been purchased by E. Z. Jones, the hustling real estate man of Lakeland, who is representing a wealthy syndicate of capitalists in Illinois. This is decidedly the largest land deal ever to be pulled off in Columbia county and will no doubt mean new life to the business interests of Lake City.

W. S. Rodgers, who lives on South Beach street, has the distinction of being the first fisherman of the season to land a tarpon. On Tuesday of last week Mr. and Mrs. Rodgers were out in a row boat and landed a beautiful specimen of this gamey fish weighing seventy pounds. On Friday Mr. Rodgers was out again and had the pleasure of landing another that weighed eighty-five pounds and was five and one-half feet in length. This beautiful fish he had trussed up in his yard for some time where it was viewed by many.—Daytona Gazette-News.

It is found upon close examination that the long black rootlets of the water hyacinth, around Welaka are alive with various sized shrimp, from the tiny one just from the egg to the full grown one there in hiding. Fowls at once eat the leaves and only after grain, like oats or wheat, has been scattered on the roots do they begin to find and scratch out the young shrimp. From then on they seem more fond of catching them than eating the grain thrown out. The hyacinths are easily gathered by all near the St. Johns and Ocklawaha rivers and that grain is so very high and the food they provide so complete that no doubt Uncle Sam will provide shelter for numerous beds of them along the rivers that they may not become extinct by extreme cold in winter.

## ABOUT ADVERTISING—NO. 10

# The Man Who Retreats Before His Defeat!

By Herbert Kaufman.

Advertising isn't magic. There is no element of the black art about it. In its best and highest form it is plain talk, sane talk—selling talk. Its results are in proportion to the merit of the subject advertised and the ability with which the advertising is done.

There are two great enemies to advertising profit, and both of them are caused by ignorance of the real functions and workings of publicity.

The one is to advertise promises which will not be fulfilled, because all that advertising can do when it accomplishes most is to influence the reader of your copy to investigate your claims.

If you promise the earth and deliver the moon advertising will not pay you.

If you draw men and women to your store on pretense and fail to make good, advertising will have harmed you because it has only drawn attention to the fact that you are to be avoided.

It is as unjust to charge advertising with failure under these conditions as it would be for your neighbor to rob a bank and find yourself indicted for his misdeed. In brief, advertised dishonesty is even more profitless than unexploited deception.

The other great error in advertising is to expect more out of advertising than there is in it.

Advertising is seed which a merchant plants in the confidence of the community. He must allow time for it to grow. Every successful advertiser has to be patient. The time that it takes to arrive at results rests entirely with the ability and determination you display in the effort. But you cannot turn back when you have traveled half way and declare that the path is wrong.

You can't advertise for a week and because your store isn't crowded say it hasn't paid you. It takes a certain period to attract the attention of readers. Everybody doesn't see what you print the first time it appears. More will notice your copy the second day, a great many more at the end of a month.

You cannot expect to win the confidence of the community to the same degree that other men have obtained it without taking pretty much the same length of time that they did. But you can cut short the period between your introduction to your reader and his introduction to your counters by spending more effort in preparing your copy and displaying a greater amount of convincingness.

You mustn't act like the little girl who planted a garden and came out the next day expecting to find it in full bloom. Her father had to explain to her that plants require roots and that, although she could not see what was going on, the seeds were doing their most important work just before the flowers showed above ground.

So advertising is doing its most important work before the big results eventuate, and to abandon the money which has been invested just before results arrive is not only foolish but childish. It would be just as logical for a farmer to abandon his fields because he could not harvest his corn a week after he planted it.

Advertising does not require faith—merely common sense. If it is begun in doubt and deserted before normal results can be reasonably looked for, the fault does not lie with the newspaper or with publicity—it rests entirely upon the head of the coward who retreated before he was defeated.

## "That Which Is Worth Having Is Worth Advertising For"

The old adage that what is worth having is worth asking for is still true—true of the more intricate life of today.

The thing you want—whether it is a used piano or a home, whether it is a ready-made business or a lost pocket-book—is obtained readily through advertising, and with difficulty, or not at all, through other means.

## HOOKING ALLIGATORS.

A Florida Sport With an Element of Uncertainty in It.

"Hunting alligators at night with a bullseye lantern and shotgun is tame sport compared with what is called a gator hunt in Florida," said an old Floridian who is visiting New York. "I mean the feat of capturing an alligator alive and then towing the fellow to high ground through mud and water from what is called in Florida a gator hole."

"The gator fishermen first find the hole, which is indicated by an opening in the surrounding grass in the midst of a dense growth of vegetation, where the ground is worn smooth by the alligator in his pulls in and out. Sometimes these gator holes are in the nature of a cave in the bank of a stream and may be fifteen or twenty feet deep, and if so it is not an easy matter to get the animal out."

"The fisher is supplied with a long pole with a metal hook on the end. He takes a strong rope and throws it about the entrance of the hole. Then the fisher rams with the hooked pole down the den and waits and listens. If he finds a gator in the hole he teases the beast by poking him until the gator in a rage finally grabs the hooked pole and is pulled from the den. It is with uncertainty that he is dragged forth, for it is not known whether the catch is large or small. The fisher does not know whether to get into shape to run or to fight. Out the gator comes, bellowing and roaring mad."

"After the gator is dragged to the surface he in his rage turns and rolls and finally twists himself up in the rope or noose that has been previously prepared. With the assistance of the others in the party the gator's legs and mouth are tied and the gator is a prisoner."

"The gator is for the most part caught in marshes where the ground is soft and slushy and too wet for either horse or wagon to enter. The fishers are compelled to carry their catch to higher ground, there to be loaded into the waiting wagon, and the hunt is ended."—New York Sun.

## Cured Hay Fever and Summer Cold.

A. S. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

## The Hot Air Balloon.

It is related that the hot air balloon had its origin in a petticoat. Mme. Montgolfier had washed her garment, intending to wear it to a great festival the next day, and hung it over a chafing dish to dry. The hot air swelled out its folds and floated it up into the air. The lady, in astonishment, called her husband to see the sight. He at once grasped the idea and was not long in producing the hot air balloon.

In buying a cough medicine, don't be afraid to get Chamberlain's Cough remedy. There is no danger from it, and relief is sure to follow. Especially recommended for coughs, colds and whooping cough. Sold by all druggists.

## PAM-ALA

is unlike any other medicine ever used for CHILLS and FEVER.

Mrs. T. J. McEvoy, of the New Orleans Item, writes: "Feb. 15, 1909, I have suffered for years from Chills and Fever. I tried a sample of 'PAM-ALA' as I was suffering with Malaria. After taking four doses the fever and ague left me and I felt like a new woman." "Pam-ALA" will make MALARIA a thing of the past.

Contains no Quinine in any form. Sold by druggists. \$1.00 bottles.

## Two Ribs Broken.

Several people saw him slip on a wet step and fall. Partly extricating himself from his umbrella, he set up such a wall of distress that every one in hearing ran to his assistance regardless of the drenching rain.

"Are you hurt?" asked a chorus of voices.

"Anything broken?" demanded another.

"Only two ribs," he muttered in tones of deep anguish as he wiped his bearded face on his sleeve.

Helping him up, a kind man dragged him into a drug store. One thoughtful person suggested a glass of brandy, another more generous said there were two ribs broken, and a second glass followed the first.

"That'll make you feel better, old man. Ribs hurt you now?"

"What ribs?" he puzzled, smacking his lips.

"Why, the ones you said were broken?"

"Oh," he replied, getting on his feet and moving toward the door. "They was de ribs in me umbrella."—Judge

## What Is Best for Indigestion?

Mr. A. Robinson of Drumquin, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Stomach and Liver Tablets as "the best medicine I ever used." If troubled with indigestion of constipation give them a trial. They are certain to prove beneficial. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at all drug stores.

## Self Evident.

One of the dangers of a little knowledge is that its possessor rarely estimates it at its true value. Ignorance, it has been said, bestows her choicest gifts on those who value her least.

A conceited undergraduate once said to his teacher that he feared he had rather a contempt for Plato.

"I am afraid, Mr. Johnson," replied the teacher, "that your contempt has not been bred by familiarity."—Youth's Companion.

## CAPUDINE for "THAT HEADACHE."

Out last night? Headache and nervous this morning? Hicks' Capudine just the thing to fit you for business. Clear's the head—braces the nerves. Try it. At drug stores.

## Unrequited Love.

First Office Boy—Me boss is awful cranky lately. I wonder what makes him so hard on a fellow. Second Office Boy—Dat's easy. When a man's hard on a fellow it's a sign he's soft on a girl.—Lippincott's.

For indigestion and all stomach trouble take Foley's Orino Laxative as it stimulates the stomach and liver and regulates the bowels and will positively cure habitual constipation. J. W. McCollum & Co.

## A MAN OF LUCK.

The Story of the Test by the Eastern King's Minister.

A king once said to a minister, "Do you believe in luck?"

"I do," said the minister.

"Can you prove it?" asked the king.

"Yes, I can."

So one night he tied up to the ceiling of a room a bag containing peas mixed with diamonds and let in two men, one of whom believed in luck and the other in human effort alone. The one who believed in luck quietly laid himself down on the ground on his blanket; the other after a time found the bag and, feeling in the dark the peas and stones, ate the peas and threw the diamonds to his companion, saying, "There are the stones for your idleness."

The man below received them in his blanket.

In the morning the king and the minister came and told each man to keep what he had found. The man who believed in trying got the peas which he had eaten; the other got the diamonds.

The minister then said, "Sire, there may, you see, be luck, but it is as rare as peas mixed with diamonds, so let none hope to live by luck."—An Eastern Fable.

## A Weakling

Is the only way to describe the poor child that is afflicted with worms. No matter how much or how often it eats, the worms get all the nourishment from the food—the child gets practically none. White's Cream Vermifuge gets rid of the worms quickly, easily and with no bad after-effects. Price 25 cents a bottle. Sold by W. M. Johnson.

## Origin of the Word Academy.

Academeus was a wealthy Greek of Athens who lived several hundred years before the birth of Christ. Among his possessions was a beautiful grove, where young men used to congregate and listen to the teachings of wise men, such as Plato and Socrates. This developed into the school of modern times, and these modern schools take their name "academy" from the old Greek, Academeus. The real meaning of the word academy is a school for boys.

No matter how long you have suffered, Foley's Kidney Remedy will help you. Mrs. S. L. Bowen, of Wayne, W. Va., writes: "I was a sufferer from kidney disease, so that at times I could not get out of bed, and when I did I could not stand straight. I took Foley's Kidney Remedy. One dollar bottle and part of the second cured me entirely." It will cure you. J. W. McCollum & Co.

## Frodding Him.

Marie—But if you love Tom why do you go about with Jack? Madge—Well, you see, Tom is rather slow, and I'm using Jack as a pincemaker for him.—Exchange.

The greatest battle-axe in the world is a woman's age when it begins to tell on her.—Philadelphia Record.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes of water and climate often cause sudden attacks of diarrhoea, and it is best to be prepared. Sold by all druggists.

## Zeke Was Right.

A farmer employed a boy to guard his strawberry patch from birds. The berries—fancy fruit as big as peaches—kept disappearing, and the man suspected the boy of eating them. So one morning he came down to the patch, looked it over and then said, "I know you don't touch these berries, my lad, but Zeke says you do. Today I'll test you—just to convince Zeke."

He took out a little lump of chalk and pretended to chalk the boy's lips but really it was only his finger that he rubbed over them. "Now," he said, "when I come down here this afternoon we'll see who's right about you Zeke or I."

And with pretended carelessness he tossed the chalk on to the ground. On his return, some hours later, it was plain who was right. The boy's lips were chalked with a white, stiff layer half an inch thick.—Los Angeles Times

## Take Notice.

All persons are recommended to take Foley's Kidney Remedy for backache, rheumatism, and kidney and bladder trouble. It will quickly correct urinary irregularities, which, if neglected, may develop into a serious illness. It will restore health and strength. Do not neglect signs of kidney or bladder trouble and risk Bright's disease or diabetes. J. W. McCollum & Co.

## Family Floriculture.

George Blank, the stage manager, is a lover of nature and a hater of overcoats and umbrellas. Recently during a violent rainstorm he called on his mother, entering her presence wringing wet.

"George," said she firmly, "you ought not to expose yourself in such weather. You will get pneumonia."

"But, mother," exclaimed George, with a theatrical wave of his hand, "why should I fear the rain? Does it not nurture the grass? Is it not life to the flowers?"

"It is a long time," said the good woman, closing a window, "since you were a flower."—Success Magazine.

**GAINESVILLE,**

—THE—

**University City.**

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit

a few of them in the following enumeration of what

**Gainesville Has:**

One artist.  
No saloons.  
One garage.  
Four hotels.  
Four banks.
